I am writing to express my strong interest in pursuing an internship opportunity for the upcoming summer of 2024. As a dedicated student at the University of Missouri, currently majoring in Information Technology with a minor in Mathematics and a certificate in Cybersecurity. I am eager to gain practical experience in a professional setting and contribute to your team's success.

Throughout my academic journey, I have developed a solid foundation in information technology, equipping me with the knowledge and skills necessary to thrive in a dynamic and tech-driven environment. My complementary studies in Mathematics have fortified my quantitative reasoning skills. Additionally, I have worked with a Real Estate Development company throughout college, primarily in sales and operations, generating over \$900K in rental income.

I'm eager to develop my practical skills further this summer, and I am excited about the opportunity to learn more about your firm. Attached is my resume, which provides more detailed information about my academic achievements and extracurricular activities. I welcome the opportunity to discuss how my skills and aspirations align with the goals of the company. Please feel free to reach out to me at 973-303-7898. Thank you for considering my application.

Sincerely,  
Max Cytron
